

EVANS M. NYAIRO

P.O Box 1684-00606,Sarit |Tel:+254742437625 | Email: e.m.nyairo@gmail.com

PROFESSIONAL STATEMENT

Dedicated and detailed Web and Graphic Designer with Experience supporting front and back-end Web development and Designation within diverse corporate environment .Possessing strong foundation in UI/UX Designing principles and practices,coupled with enormous practices that facilitates efficient programming .skilled in MYSQL,SQL,javascript,firebase,HTML,CSS,BOOTSTRAP,Tailwind CSS,Wordpress,Redis,Php,Gulp automtive tool ,slack and nortion to generate my project documentations .A proactive team player with excellent communication and problem-solving skills ,committed to contributing to th succes of software engineering departent.seeking to leverage my skill and experience to contribute to a dynamic software development team.

Major Highlights

- **Full-Stack Development with Diverse Tools:** I can leverage JavaScript (JS) for interactivity in both the frontend (HTML/CSS) and backend (Node.js with frameworks like React. Style my application with CSS frameworks like Tailwind CSS or Bootstrap for a consistent and responsive design.I Automate tasks using Gulp for efficient development workflows.
- **Database Management and Integration:** For robust data storage, I can utilize MySQL or integrate with NoSQL databases like Redis for caching or Firebase for realtime functionality. Manage database structures and queries using SQL.
- **Enhanced Communication and Collaboration:** Integrate Slack for seamless team communication and project updates. Utilize Notion for collaborative note-taking, task management, and knowledge sharing within your development team.

SIGNATURE COMPETENCIES

- **Modern UI/UX Development:**Skilled in building responsive and user-friendly interfaces with Figma.
- **Streamlined Development Workflow:** Utilizes Gulp for efficient task automation.
- **Database Savvy:** Possesses strong knowledge of relational databases (MySQL) and familiarity with NoSQL solutions (Redis, Firebase).
- **SQL Proficiency:** Skilled in writing efficient SQL queries for data manipulation and retrieval.

- **Data-Driven Development:** Integrates databases effectively to build robust and scalable applications.

PROFESSIONAL AND ACADEMIC QUALIFICATIONS

Bachelors Of Science Information Technology | Kabarak University – waiting for graduation
Cardinal Otunga High School-Mosocho | Mean grade B-

WORK EXPERIENCE

-Chosen Children Of Promise – may-August 2023-

- **Website Development and Maintenance:** I assisted in building and maintaining the non-profit's website.,And also my task was :

Front-End Development: Using HTML, CSS, and JavaScript frameworks like those you mentioned (Tailwind, Bootstrap) to create user-friendly interfaces for online donations, volunteer signup forms, or program information pages.

Content Management System (CMS) Management: Helping maintain the website content through a CMS platform and ensuring its accuracy and relevance.

- **Data Management and Reporting:**I was involved in managing and analyzing data to support the organization's mission. And this included:

Database Management: Utilizing skills with MySQL or other databases to store and organize donor information, volunteer hours, or program impact data.

Data Visualization: Creating reports and visualizations using tools like SQL to showcase the non-profit's achievements and impact, potentially for grant applications or fundraising purposes.

- **Building Internal Tools:**I built internal applications to streamline workflows for staff and volunteers. And this included:

Custom Application Development: Using JavaScript frameworks (e.g., Node.js) and back-end technologies (e.g., PHP) to develop tools for volunteer scheduling, case management, and grant application tracking.

Social Media Integration:I helped integrate social media platforms with the website and build features for online fundraising campaigns like adverts on linkedin using vimeo and kittl.
